

Web cast with Facebook Integration

In Internet Explorer, you may notice a yellow bar at the top of your browser window asking you to accept a Windows Media Player Extension. To view the web cast via the Internet Explorer web browser, you must allow this add-on to run.

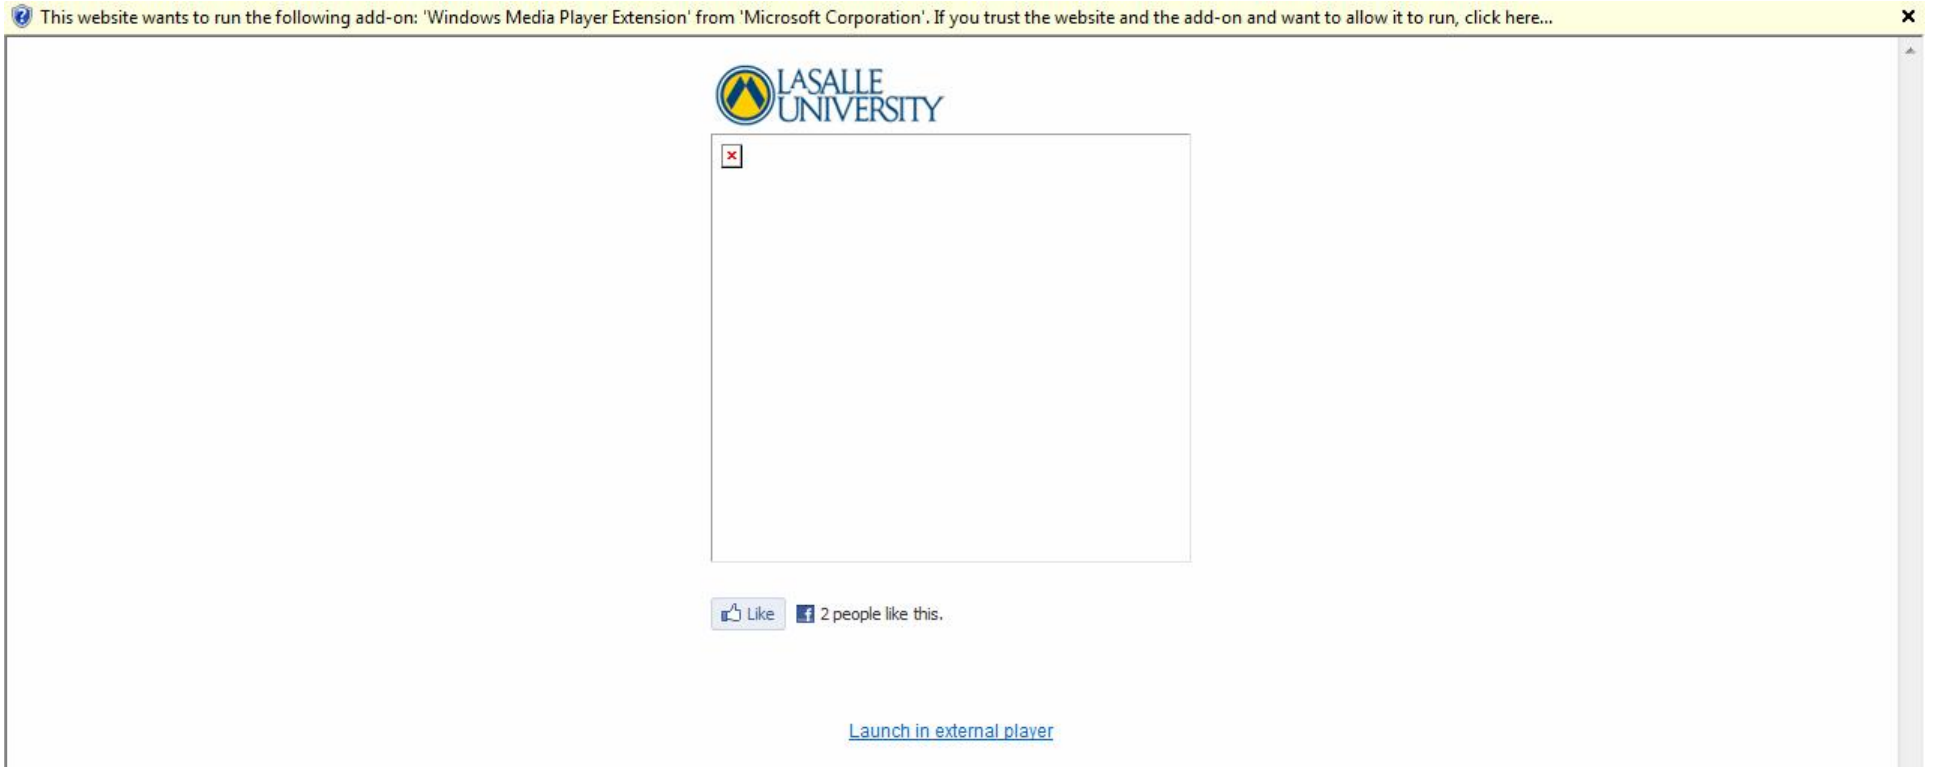

Step 1. Click on the yellow bar

Step 2. Accept Active X Content (Windows Media Player Extension)

Step 3. A dialog box will appear click the “Run” button to begin streaming.

Optional: Click the Like button to let your Facebook friends know you like the La Salle Commencement

This website wants to run the following add-on: 'Windows Media Player Extension' from 'Microsoft Corporation'. If you trust the website and the add-on and want to allow it to run, click here... ✕
